SUMMARY

Passionate Cybersecurity Analyst and Bug Bounty Hunter with a strong foundation in vulnerability assessment and penetration testing. Proven track record of independently identifying and reporting critical security flaws - such as PII leakage and CORS misconfigurations - on major platforms. Dedicated to making the digital world safer through proactive ethical hacking.

EXPERIENCE

Independent Security Researcher (Bug Bounty) 2024 - Present Remote

- Identified and reported critical security vulnerabilities in major tech services, adhering to responsible disclosure protocols.
- Discovered critical misconfigurations related to Cookie Security and CORS policies, preventing potential attacks.
- Reported a confirmed PII (Personally Identifiable Information) Data Leakage vulnerability via HackerOne.

Cybersecurity Intern 06/2024 - 09/2024 Bytewise Ltd (Remote)

- Conducted comprehensive vulnerability assessments using industry-standard tools like Nmap and Wireshark.
- Analyzed network traffic anomalies and system behaviors to identify potential security breaches.
- Performed security testing within sandbox environments and managed security configurations for Active Directory.

SELECTED PROJECTS

Parental Watch: AI-Based Device Monitor

- Developing a secure, ethical AI-based monitoring system designed to ensure safer digital parenting by analyzing screen activity.

AI-Based Career Guidance System

- Designed and developed a comprehensive career recommendation platform utilizing machine learning algorithms.
- Analyzed user skills, academic history, and interests to generate personalized career roadmaps.

EDUCATION

Bachelor of Science in Computer Science 11/2025 Mehran University of Engineering and Technology

SKILLS & CERTIFICATIONS

Tools: Burp Suite, OWASP ZAP, Nmap, Wireshark, John The Ripper, Aircrack-ng, Kali Linux

Technical Skills: Vulnerability Assessment, Penetration Testing, OWASP Top 10, Cryptography, Active Directory, NLP, Deep Learning

Certifications: Ethical Hacker (Cisco), Foundation of Cybersecurity (Google), Cybersecurity Essentials (Cisco)

Languages: English (Professional), Urdu (Native), Sindhi (Native)
